HITCH
Cat. 1

SEEDERS

Renovate turf or establish a new lawn.

The OS15 Overseeders offer precise placement and seed-to-soil contact, making them ideal for over-seeding existing stands of grass or establishing new turf. The three way seed-to-soil contact system provides great germination and emergence with the solid advantages of a full-width seeding pattern. Fluted seed cups precisely meter the desired amount of seed in a broadcast pattern, delivering outstanding metering accuracy. Choose from gauge-wheel drive or plant close to sidewalks and obstacles with the rear-roller drive.

(A) Straight, aggressive 3/16" thick knives prepare the soil by pulling up thatch, while (B) 10 gauge curved knives provide a minimum of surface disturbance.

The optional small seeds box allows two seeds to be metered at one time into the same seed tube for even distribution.

The solid, cast-iron packer wheels finish the job by pressing and firmly packing the seed into the soil, eliminating most air pockets.
